Some tips for writing Assignments better.

- Students, who wish to prepare first the draft of the Assignment, can do so by doing it in your own papers. After finalizing the draft, you can rewrite in the supplied Assignment Booklets neatly and legibly.
- Write the number and title of the 'assignment topic' clearly and boldly on the top of the page as heading, i.e., always start the topic/ heading at the top of a new page.
- Those students, who are using additional sheets to write more, should attach the sheets firmly to the individual booklets. As far as possible complete your write-up within the pages of the supplied booklet. If the length (number of pages) of the answer is specified, please restrict your write-up to the pages specified.
- You are expected to read/ study the reference books, as many of them as available to you, comprehend the subject/ topic, and then start writing assignment with a good introductory paragraph.
- Give a list the books/source materials that you have referred while preparing the assignment (list of references) at the end of your write up.
